Do Hoang Anh Khoa

Back-end Developer Intern

Birth 31/10/2003 **Phone** (+84) 902503604

Email khoadha9a2.dt@gmail.com Address Ho Chi Minh, Viet Nam

Summary

- I am a person who loves to find and providing solutions to problems while making software, particularly in the field of Back-end Development. Driven by self-motivation and a hunger for growth, I constantly seek opportunities to learn and expand my skill set.
- I have accumulated over 6 months of experience in developing web applications using C#, Java. Currently, I am actively
 engaged in expanding my skill set by acquiring knowledge in ASP.NET Core and Azure Cloud Services, with the aim of
 broadening the scope of my employment opportunities.

- Programming Languages: C#, Java
- Frameworks/Libraries: ASP.NET Core, Entity Framework Core, Bootstrap
- · Server-side Technology: Java Servlet
- Markup Language: HTML
- Styling Language: CSS
- · Database: Microsoft SQL Server
- Design Patterns: MVC, Object-Oriented Programming (OOP)
- · Version Control: GitHub
- · IDEs: Visual Studio, NetBeans
- · DevOps: Azure Cloud Services
